(ex. Iphone 3G, V3 RAZR, Bold)

What kind of problem are you having with your phone? Physical Damage repairs include problems with cracked or broken screens, lcds, audio issues and just basic scuffs and scratches; or the top portion of your slider or flip phone coming loose, or even broken in 1/2! Software issues can range in variety so be specific when describing your problem.

Example: (I cracked the glass/screen on my iPhone and need to have it replaced, or I can hear people who call me, but they can't hear me!)

How did you hear about us? A friend, google? Yahoo? MSN? Or a local retailer?
